## HOW IT WORKS

Welcome to the easiest and fastest way to quote, compare, and bind commercial cyber policies.

### HOW IT WORKS

#### Step 1 - Submit

Enter the submission. It's five fields, super easy.

#### Step 2 - Get quotes

Almost instantly, you'll receive a Cyber Proposal Pack containing several cyber quotes from leading carriers.

#### Step 3 - Bind

Guide the client to choose a quote and complete the application.  
Then notify your wholesale broker to bind.

## WHAT IS A CYBER PROPOSAL PACK AND WHAT TO DO WITH IT

Step 1 - Submit    Step 2 - Get Quotes    Step 3 - Bind

Within minutes of submitting, you'll be emailed a Cyber Proposal Pack. The "pack" includes multiple quotes based on the information you provided and educational tools that help you better articulate cyber threats and coverage. Download a sample Cyber Proposal Pack [here](#).

Shortly after your first submission, your agency's logo will automatically appear on future Cyber Proposal Packs.\*

①

### REVIEW CYBER PROPOSAL PACK

Review the Cyber Proposal Pack and forward it to your client.

②

### CHOOSE QUOTE

After choosing a carrier, the client accesses the application by clicking the "review application" link.

*\* Restrictions may apply. If your logo does not appear after 15 business days, contact your broker.*

## COMPLETE THE APPLICATION

Step 1 - Submit

Step 2 - Get Quotes

Step 3 - Bind

1

### CLIENT COMPLETES APPLICATION

The applicant reviews and e-signs the application. Alternatively, they can sign manually.

2

### BIND

You and your broker are automatically notified once the applicant e-signs. If the applicant approves, you notify the broker who can immediately bind.

### ARE THE QUOTES BINDABLE?

Yes.

To give you more options fast, all applications are pre-populated with standard business presumptions. If the applicant changes any of the presumptions the terms could change. Once the signed application is submitted, see the firm carrier quote for final pricing and terms.

Examples of presumption answers that could alter coverage are past cyber claims and a lack of basic security measures.
